REASONS TO LOVE DAIKON SEED EXTRACT

The Original Producers of
Meadowfoam Seed Oil™

Natural Plant Products

IN PERSONAL CARE FORMULATIONS...

Daikon Radish Seed produces an odorless, light colored vegetable oil that provides a great alternative to synthetic emollients. With a silicone-like feel, DSE's non-greasy, delicate texture makes it a great choice for a range of personal care applications.

BEE-FRIENDLY FARMING PRACTICES...

Our farmers are keenly aware of the vital importance pollinators play in the propagation and yield of our crops. We strive to follow the most bee-friendly and sustainable practices throughout our growing environment.

INVOLVEMENT

14 One acre of daikon produces **12-14 MILLION BLOOMS**
providing **IMPORTANT FORAGE FOR BEES**

AS A CROP...

Our cooperative is composed of numerous multi-generational Oregon farms that are mindful stewards of the Willamette Valley's precious, agriculturally-rich soils and unique environment where our daikon radish is grown as a rotational crop to improve soil health.
