

## NATURAL BOTANICALS VEGAN LIP BALM

Our lip balm combines no less than five emollients as well as locally sourced peppermint oil and is great for moisturizing bare lips or as a primer under lip color. This unusually stable natural lip balm contains **Meadowfoam Seed Oil** and **Daikon Seed Extract**, which give lips a rich, moisturizing feel with a bit of shine. Highly stable **Meadowfoam Seed Oil** also extends the oxidative stability of this product, a key benefit as lip balms last so long they can go rancid before they are used up. Cupuacu butter and cocoa butter provide a nice long-lasting light coating on lips without feeling waxy. Sunflower and carnauba wax provide vegan alternatives to beeswax.
