

Safety Data Sheet

acc. to OSHA HCS

Date of issue: 09/04/2026

Version No: 1.00

Reviewed on 09/04/2026

1 Identification

Product identifier

Trade name: Abyssinian Oil

CAS Number:

68956-68-3

Other means of identification

EC number:

273-313-5

Recommended use: Cosmetic auxiliary

Restrictions on use: No further relevant information available.

Details of the supplier of the safety data sheet

Manufacturer/Supplier:

Natural Plant Products, LLC

3455 Aumsville Hwy SE, Suite 190

Salem, OR 97317 USA

Telephone: +1 503 363 6402

Telefax: +1 503 587 8717

E-mail (competent person): bbast@meadowfoam.com

Website: <http://www.meadowfoam.com>

Emergency telephone number:

VelocityEHS - MIS2669971

Tel.: 1-800-255-3924 inside US; +1-813-248-0585 outside US

2 Hazard(s) identification

Classification of the substance or mixture

The substance is not classified, according to the Globally Harmonized System (GHS).

Label elements

GHS label elements Void

Hazard pictograms Void

Signal word Void

Hazard statements Void

Other hazards

Results of PBT and vPvB assessment

PBT: This product does not contain any substances $\geq 0.1\%$ that have been assessed as PBT.

vPvB: This product does not contain any substances $\geq 0.1\%$ that have been assessed as vPvB.

Classification according to (d)(1)(ii) of § 1910.1200

No known hazards under reasonably anticipated uses or applications.

Hazards not otherwise classified

There are no adverse physical or health effects known that are not covered by the hazard classes of the Hazard Communications Standard.

3 Composition/information on ingredients

Chemical characterization: Substances

CAS No. Description

CAS: 68956-68-3 Vegetable Oil Triglycerides

Identification number(s)

EC number: 273-313-5

4 First-aid measures

Description of first aid measures

General information:

No special measures required.

If symptoms persist consult doctor.

After inhalation: Supply fresh air.

After skin contact: Generally the product does not irritate the skin.

After eye contact:

Rinse opened eye for several minutes under running water.

Remove contact lenses, if present and easy to do. Continue rinsing.

After swallowing: Rinse mouth.

Most important symptoms and effects, both acute and delayed

No further relevant information available.

Indication of any immediate medical attention and special treatment needed

No further relevant information available.

5 Fire-fighting measures

Extinguishing media

Suitable extinguishing agents:

CO₂, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

Use fire fighting measures that suit the environment.

For safety reasons unsuitable extinguishing agents: Water with full jet

Special hazards arising from the substance or mixture

Formation of toxic gases is possible during heating or in case of fire.

In case of fire, the following can be released:

Carbon monoxide

Carbon dioxide

Advice for firefighters

Protective equipment: Wear self-contained respiratory protective device.

Additional information

Cool endangered receptacles with water spray.

Collect contaminated fire fighting water separately. It must not enter the sewage system.

6 Accidental release measures

Personal precautions, protective equipment and emergency procedures

Ensure adequate ventilation.

Safety Data Sheet

acc. to OSHA HCS

Date of issue: 09/04/2026

Version No: 1.00

Reviewed on 09/04/2026

Trade name: Abyssinian Oil

(Contd. of page 2)

Wear protective clothing.

Environmental precautions: Do not allow to enter sewers/ surface or ground water.

Methods and material for containment and cleaning up:

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

Dispose of the collected material according to regulations.

Reference to other sections

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

7 Handling and storage

Precautions for safe handling Prevent formation of aerosols.

Information about protection against explosions and fires: No special measures required.

Conditions for safe storage, including any incompatibilities

Storage:

Requirements to be met by storerooms and receptacles: Store only in the original receptacle.

Information about storage in one common storage facility: Store away from oxidizing agents.

Further information about storage conditions: Store in cool, dry conditions in well sealed receptacles.

Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

Control parameters

Components with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

Exposure controls

Appropriate engineering controls No further data; see section 7.

Personal protective equipment:

General protective and hygienic measures:

Do not eat, drink, smoke or sniff while working.

Keep away from foodstuffs, beverages and feed.

The usual precautionary measures for handling chemicals should be followed.

Breathing equipment: Not necessary if room is well-ventilated.

Protection of hands:

Protective gloves and protective skin cream

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Eye protection:

Tightly sealed goggles

Body protection: Protective work clothing

Limitation and supervision of exposure into the environment No further relevant information available.

9 Physical and chemical properties

Information on basic physical and chemical properties

General Information

Physical state	Liquid
Form:	Oily
Color:	Yellowish
Odor:	Characteristic
Odor threshold:	Not determined
Melting point/Melting range:	Not determined
Boiling point/Boiling range:	> 93.3 °C (> 199.9 °F)
Flammability:	Not applicable
Explosion limits:	
Lower:	Not applicable
Upper:	Not applicable
Flash point:	177 °C (350.6 °F)
Auto ignition temperature:	Not determined
Decomposition temperature:	Not determined
pH-value:	Not determined
Viscosity:	
Kinematic:	Not determined
Dynamic:	Not determined
Solubility in / Miscibility with	
Water:	Not determined
Partition coefficient (n-octanol/water):	Not determined
Vapor pressure:	Not determined
Density at 20 °C (68 °F):	0.85 - 0.95 g/cm ³ (7.09325 - 7.92775 lbs/gal)
Relative density	Not determined
Vapor density	Not determined
Particle characteristics	Not applicable

Other information

Important information on protection of health and environment, and on safety.

Danger of explosion: Product does not present an explosion hazard.

Molecular weight: Not determined

Drop point:

Oxidizing properties: No

Evaporation rate

Not determined

(Contd. of page 4)

10 Stability and reactivity

Reactivity Under normal conditions of use, no specific reactivity is known.

Chemical stability No decomposition if used and stored according to specifications.

Thermal decomposition / conditions to be avoided:

No decomposition if used according to specifications.

Possibility of hazardous reactions No dangerous reactions known.

Conditions to avoid No specific conditions to avoid known.

Incompatible materials: No specific incompatible materials known.

Hazardous decomposition products: No dangerous decomposition products known.

11 Toxicological information

Information on toxicological effects

Acute toxicity: Based on available data, the classification criteria are not met.

Primary irritant effect:

on the skin: Based on available data, the classification criteria are not met.

on the eye: Based on available data, the classification criteria are not met.

Sensitization: Based on available data, the classification criteria are not met.

Additional toxicological information:

When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

The substance is not subject to classification.

Interactive effects No interactive effects between components are known.

Carcinogenic categories

IARC (International Agency for Research on Cancer) Substance is not listed.

NTP (National Toxicology Program) Substance is not listed.

OSHA-Ca (Occupational Safety & Health Administration) Substance is not listed.

Alternative sources for toxicological information

No non-standard sources for toxicological information where used.

12 Ecological information

Toxicity

Aquatic toxicity: No further relevant information available.

Persistence and degradability: No further relevant information available.

Bioaccumulative potential No further relevant information available.

Mobility in soil No further relevant information available.

Other adverse effects No further relevant information available.

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

Date of preparation 09/04/2026

Abbreviations and acronyms:

REACH: Registration, Evaluation, Authorisation and Restriction of Chemicals

MARPOL: (from Marine Pollutant) International Convention for the Prevention of Marine Pollution from Ships

IBC Code: International Code for the Construction and Equipment of Ships carrying Dangerous Chemicals in Bulk

UN: United Nations (also UNO: United Nations Organization)

NOEC: No Observed Effect Concentration

OECD: Organisation for Economic Co-operation and Development

ASTM: American Society for Testing and Materials

WAF: Water Accommodated Fraction

ADR: Accord relatif au transport international des marchandises dangereuses par route (European Agreement Concerning the International Carriage of Dangerous Goods by Road)

IMDG: International Maritime Code for Dangerous Goods

DOT: US Department of Transportation

IATA: International Air Transport Association

EINECS: European Inventory of Existing Commercial Chemical Substances

CAS: Chemical Abstracts Service (division of the American Chemical Society)

PBT: Persistent, Bioaccumulative and Toxic

vPvB: very Persistent and very Bioaccumulative

NIOSH: National Institute for Occupational Safety

OSHA: Occupational Safety & Health

TLV: Threshold Limit Value

PEL: Permissible Exposure Limit

REL: Recommended Exposure Limit

Sources

This Safety Data Sheet is based on a combination of internal technical data, information on raw materials, and generally accessible sources in the field of chemical safety, including publicly available databases such as those of the European Chemicals Agency (ECHA).
